SERVICES FOR PARENTS WHO NEED SUPPORT, SERVICES FOR PARENTS WHO NEED HELP PAYING SUPPORT

Financial support and parental involvement determine what a child has in life, what that child can do, and who that child will become. The San Francisco Department of Child Support Services provides case management services to parents, guardians, and caretakers of minor children, regardless of marital status or income. Our services include the location of parents, the establishment of paternity and support orders, modification of existing child support orders, and enforcement of support obligations. All our services are available to you for a nominal fee of \$25 per year and all your information is kept confidential. Come in and talk with our staff or call us and our staff will come meet you anywhere in San Francisco! Remember that we are here to help, not to hurt. Take charge and let us work with you. REMEMBER THAT CHILD SUPPORT IS LIFE SUPPORT!

Help a parent, and you help a child as well. We also offer services to parents who need help paying support. Our *Transitions SF* program can provide PAID job opportunities and FREE programs to qualifying applicants. Our programs can help you get a job, get training, and deal with any obstacles you might have to paying support. For more information on *Transitions SF*, call (415) 356-2942.

Description of Directory

The *Directory of Social Services for Women in San Francisco* is a comprehensive guide representing an important means by which individuals can access nonprofit and government services available to residents within the City and County of San Francisco and the Bay Area.

The focus of this *Directory* is on services that are women- and girl-specific; that is, services that are designed for and sensitive to the unique needs of women and girls. However, many of the organizations listed also provide services to both men and boys.

Although every effort has been made to verify the information for accuracy, changes in personnel and services do occur. Please contact the Department on the Status of Women immediately with any modifications, additions, or deletions to the services listed in this *Directory*. Contact us at dosw@sfgov.org or (415) 252-2570.

Information for Unmarried Parents

Paternity Means Fatherhood.

When parents are unmarried, the father does not automatically have the legal rights of a parent. The Paternity Opportunity Program (POP) offers free, voluntary paternity establishment, without having to go to court.

Establishing Paternity Helps Your Baby.

- ◆ The father's name can be placed on the birth certificate.
- ◆ The child may receive inheritance, health insurance, life insurance, veterans benefits, and Social Security benefits from the father.
- ◆ The father's medical history can become available if the child becomes ill.

Parents Must Sign the Declaration of Paternity Form BEFORE the Father's Name Can Be Added to the Child's Birth Certificate.

As parents, you can establish paternity for your baby by signing a voluntary Declaration of Paternity form in the hospital when your baby is born. The hospital staff will provide you with the necessary paperwork.
